Profile

Computer Science undergraduate specializing in frontend development and problem-solving. Skilled in C++, JavaScript, HTML, and CSS, with experience building responsive web applications and AI-enhanced healthcare projects.

Education

Birla Institute of Technology, Mesra <i>B.Tech in Computer Science and Engineering</i>	2022 – 2026 CGPA: 7.43
--	---------------------------

Holy Cross School, Hazaribagh <i>Class 12th – 94.33%</i>	2021 Jharkhand
--	-------------------

Munam Public School, Hazaribagh <i>Class 10th – 91%</i>	2019 Jharkhand
---	-------------------

Projects

RestCheck – LLM-Enhanced Sleep Disorder Detection

- Developed a responsive healthcare web application to collect and analyze patient sleep data.
- Integrated frontend with backend APIs to display LLM-generated personalized sleep disorder insights.
- Designed responsive UI for better user experience across devices.

Personal Portfolio Website

- Built a responsive portfolio website showcasing projects and technical skills.
- Implemented interactive UI components using HTML, CSS, and JavaScript.

Synthetic Data Generation for Plant Disease Detection

- Developed a diffusion-based model to generate realistic plant disease images.
- Improved dataset diversity and enhanced disease detection accuracy.

Library Management System

- Developed a console-based library management system using C++.
- Implemented book issue/return and record management using file handling.

Skills

- Languages: C, C++, JavaScript, Python
- Frontend: HTML, CSS, React (Basics)
- Core Subjects: DSA, OOPs, DBMS
- Tools: Git, GitHub, VS Code
